

Device Configuration Manual

Prior to configuring the device, please follow the QR code link to download the WiRIO3 Device Configurator Android Apps.

1

Placing the device into Configuration mode

A close-up of the device's top surface showing a circular status LED ring. A red arrow points to the ring, and a label 'STATUS CONFIG' is above it.

Press the Config. button to set the device into configuration mode. The indicator LED will turn to Blink-Twice.

2

Launch the WiRIO3 Device Configuration Apps and press this button to start the configuration process

The app's home screen features a large 'EVT' logo and a blue circular button with a white plus sign at the bottom right. A red arrow points from the text box to this button.

3

Select the device you wish to configure according to the Device ID indicated

The 'Select Device' screen lists a single device with ID 'WIRIO3\_3C61050DB020'. A red box highlights this ID, and a red arrow points from the text box to it.

4

Once device is connected, press "Continue" to proceed to the next step

A dialog box titled 'Device Connected' with the message 'Connected to target device, Please proceed to the next step' and 'CANCEL' and 'CONTINUE' buttons. A red arrow points from the text box to the 'CONTINUE' button.

5

The Device Configurator will list down the device properties. Press the ">" button to proceed to the setting page.

The 'Device Info' screen displays product details: 'Product: Environment Sensors Data Logger', 'Model: M5-01-01', 'MAC: 3C61050DB020', 'Firmware Version: 210621', and 'Device Details: Temp-Humidity data logging in sdcard'. A red arrow points from the text box to the right-pointing chevron at the top.

6

Go into each sub-section by pressing ">" button, to change the setting

The 'Device Settings' screen has two sections: 'Network' and 'App. Config', each with a right-pointing chevron. A red arrow points from the text box to these chevrons.

Once finish configuring the device, press the ">" button to proceed to save the setting into the device

7

Once the configuration is save to the device, the device will reboot with the new setting.

The 'Configuring Device' screen shows a green 'Successful' status and a 'CONFIGURE NEXT DEVICE' button at the bottom. A red arrow points from the text box to the top of the screen.
